ELIMINATE TEXT

TODO

How hard is it for the
admins to actually
compile all the data
for the classes

TODO

the classes should
update dynamically
as the semester is
determined

TODO

There should be
periodic and
consistent notification

TODO

try to play with
graphs and pie-charts

TODO

involving students
directly into the
process

TODO

make the process of
filling out the
questions more
enjoyable

TODO

what if we dont have
OBA what if we make
something better

TODO

sync the schedules of
the classes the
professor teaches
with the OBA

TODO

admin will have the
ability to notify the
instructors

TODO

what if do a pie chart
with how many
percentage of students
fall in what level

TODO

what if students say
wether they are
confident that they
have attained the

TODO

sliders are probably
more usable and
enjoyable than a
questionnaire

TODO

admins should be
able to contact
different stakeholder
if needs be

TODO

instructors have the
ability grade the past
semester classes

TODO

There should be
reminders of
important dates

TODO

is there a better way
to measure the
outcomes

TODO

we can have a survey
in the class during the
class and get an
average of what

TODO

try to find an
alternative for the
questionnaire

TODO

students should have
some voice on what is
being assessed

TODO
